ABOUT HUMAN SOLUTIONS

Our Mission

Human Solutions counters the forces that keep people and communities in poverty by building relationships and assets that create opportunity — today and for future generations. **Here's how:**

- 🏠 **WE PARTNER** with people and communities impacted by poverty so they can achieve long-term housing and economic security.
- 🏠 **WE INVEST** in affordable housing and community assets that contribute to strong, inclusive neighborhoods.
- 🏠 **WE ADVOCATE** with our community for policies and investments that expand housing and economic opportunity, eliminate wealth inequality and end poverty.

East Portland/East Multnomah County, Oregon, is our home and the heart of our investments, advocacy and programs.

Our Vision

Human Solutions envisions vibrant, healthy neighborhoods where all people can share in the security, hopes and advantages of a thriving, supportive community.

Our Work

EMERGENCY SERVICES

We operate two emergency shelter programs: one for women and another for families, where about 230 people have a safe place to sleep every night. We work with them to identify next steps and secure stable housing when they are ready. We also work with folks at risk of becoming homeless to help them remain in their homes. **We believe everyone deserves support in crisis.**

AFFORDABLE HOUSING

We build and operate affordable housing communities where people can afford to live and find the on-site services they need to achieve housing and economic security. We are currently developing two projects in East Portland: one with 75 units of mixed-income housing, a new Human Solutions service center and office and retail, and another with 93 units of affordable and supportive housing. **We believe housing should be affordable and accessible to all.**

ECONOMIC STABILITY

We work with people who want to increase their low incomes, with an eye toward career-track employment. We offer skills training, career planning and job placement, and we pair rent assistance to help people complete career training programs. **We believe in helping people achieve their income and career goals. housing should be affordable and accessible to all.**
